ABOUT THE COMPANY

Family-led, permit-first, built for repeat buyers.

Ophir Mineral Ventures, Inc. is a Philippine mineral trading company sourcing and exporting nickel and chromite ore. [Placeholder — replace with the real company history, years active, and site locations once confirmed with the client.]

Led by founder and president John David Montilla, the company works directly with accredited mine sites and maintains full documentation for every shipment, from ore transport permit to final assay certificate.

WHAT WE EXPORT

Two ore lines, fully specified.

Indicative grades shown below — final placeholder data pending real assay figures from the client. Each line ships with full documentation.

Nickel Ore

Laterite ore for NPI & stainless feed

Chromite Ore

Metallurgical & refractory grade

Ni content	1.5–1.8%
Fe content	~35–48%
Moisture	≤35%
Typical lot size	50,000+ WMT

[DOWNLOAD SPEC SHEET \(PDF\)](#)

Cr ₂ O ₃ content	38–44%
Cr:Fe ratio	~2.0–2.6:1
Moisture	≤12%
Typical lot size	10,000+ WMT

[DOWNLOAD SPEC SHEET \(PDF\)](#)

COMPLIANCE & CERTIFICATIONS

Documented at every step.
